1. Master kit description

The Molecular Energy Master Kit is a system for producing homeopathic treatments. It is compact, convenient, complex, and highly effective. Use it at home for personal and family needs. For those with the calling to treat others, it can be easily used in the office or a clinic. The Kit is practical and efficient to carry, so take it when you travel and want to stay healthy.

The Master Kit includes 90 vials containing complex homeopathic treatments developed after years of research and testing.

The Molecular Energy Master Kit can be taken anywhere: jungles, desert, cities, rural areas, hospitals and clinics, etc.

The Molecular Energy Master Kit is currently used by medical doctors, nurses, homeopaths, and professionals in the human health area. Thousands of people have been helped with this system of treatments.

The master kit consists of:

- 90 vials: produced by machines specialized in the production of electromagnetic frequencies and quantum energy. These are complex homeopathic treatments.
- The Remedy Maker machine: utilized to copy/clone the electromagnetic frequencies from the master vials into new bottles to be given to the person being treated. These bottles have a water and alcohol solution that will be sprayed in the mouth with a small spray pump.
- A laser light: can be attached to the Remedy Maker at the ACCULIGHT port, for localized application. Used with a treatment vial in the INPUT area, the light carries the frequency to a specific area of the body.
- A metal plate and cables: to produce multiple treatment bottles at one time.
- Cable and small power supply: to recharge battery.

2. Description of the 15 treatments

15 vials cover all the systems (organs and sub-organs) of the body and correspond to synergistic, homeopathic treatments. These treatments are named for the family of related organs they treat so they can be easily remembered.

1. Metabolic	6. Head	11. Ears
2. Cellular	7. Male	12. Lymphatic
3. Digestive	8. Female	13. Metacellular
4. Cardiovascular	9. Skin	14. Weight Control
5. Respiratory	10. Eyes	15. Detoxifier

1. METABOLIC

This treats cases of fibromyalgia, arthritis, lupus, high cholesterol, rheumatism, carpal tunnel, spinal disc hernias, and neuropathy.

This also resolves kidney and bladder issues. This treatment enhances the metabolism (absorption) of minerals and proteins by the cells, helping to avoid the accumulation of cholesterol in the arteries and the saturation of minerals in the kidneys. Helps reestablish the functions of the kidneys and bladder (infections, cysts, low-retention, and kidney stones). This treatment is recommended for viruses, bacteria, parasites, fungus, and to detoxify the metabolic system from microbes, heavy metals, chemicals, and toxins.

2. CELLULAR

This treatment aids cellular reproduction in joints, bones, organs and tissues, skin, mouth, lymphatic system, muscles, ligaments, nerves, and tendons. It helps counteract fibromyalgia, arthritis, lupus, neuropathy, bursitis, rheumatism, carpal tunnel syndrome, spinal disc hernias, skin allergies, and problems in the mouth. CELLULAR stimulates absorption of protein, cholesterol minerals, amino acids, vitamins, enzymes and salts. Reestablishes tissue regeneration in joints, bones, cartilage, skin, internal organs, and problems related to lack of rebuilding of tissues in body organs. This treatment is recommended for viruses, bacteria, parasites, fungus, and to detoxify the cellular reconstructive system from microbes, heavy metals, chemicals and toxins.

3. DIGESTIVE

Digestive functions: mouth, thyroid, stomach, pancreas, gall bladder, large and small intestines, liver, kidneys, bladder, adrenals. Helps counteract ulcers, hernias, tumors, diarrhea, constipation, acid reflux, heartburn, infections, diabetes, and coughing.Helps reestablish the digestive functions of the stomach, intestines, liver, pancreas, and gall bladder. Treatment recommended for viruses, bacteria, parasites, fungus, and to detoxify the digestive system from microbes, heavy metals, chemicals and toxins.

4. CARDIOVASCULAR

Assists with cardiovascular issues like pain in the chest, high blood pressure, low blood pressure, heart arrhythmia, valve timing, heart murmur, lack of oxygen in the blood, low hemoglobin (leukemia), low platelet count, high-low blood sugar (diabetes) due to insulin-eating toxins in the blood, varicose veins, leg ulcers, and low blood flow in legs. CARDIOVASCULAR is recommended for viruses, bacteria, parasites, fungus, and to detoxify the cardiovascular system from microbes, heavy metals, chemicals and toxins.

5. RESPIRATORY

This treatment aids the function of lungs, nose, throat, lymphatic, thyroid, asthma, chest infection, pneumonia, sinus, colds, flu, tumors, and allergies. It helps to recover from respiratory system infections or issues in the throat, bronchial, and lungs. RESPIRATORY is recommended for viruses, bacteria, parasites, fungus, and to detox the respiratory system from microbes, heavy metals, chemicals and toxins.

6. HEAD

Helps with issues of migraines, stress in neck and shoulders, depression, irritability, bipolarity, short memory, cysts, tumors, Parkinson. Also helps to improve head functions, memory, sleep issues, bad temper, nervous tic disorders, panic and nervous attacks, hormone gland functions in pineal, pituitary (TSH) and thyroid (T3, T4). HEAD is recommended for viruses, bacteria, parasites, fungus, and to detoxify the head system from microbes, heavy metals, chemicals, and toxins.

7. MALE REPRODUCTIVE SYSTEM

Helps with problems in the prostate gland, cysts, tumors, swelling, and infertility; improves male and hormonal functions like TSH, T3, and T4. Treatment aids with cysts or cancer in the prostate, erectile dysfunction, ejaculation problems, cysts in testicles, urine flow, cysts and tumors in pineal, pituitary and thyroid, infertility, and any other problems in male glands. MALE is recommended for viruses, bacteria, parasites, fungus, and to detoxify the male reproductive system from microbes, heavy metals, chemicals, and toxins.

8. FEMALE REPRODUCTIVE SYSTEM

FEMALE treats all female issues, **dysplasia, menstrual flow, cysts in ovaries, cervix, uterus; breast problems, cysts or cancer in breast. Treatment aids healing of cysts and cancer in pineal, pituitary and thyroid.** Helps adjust female and hormonal functions, the reproduction organs, hormonal glands, regulating the functions of hormones like TSH, T3, T4, ovaries, alveolar glands in the breast, and the menstrual flow. Used for infertility issues. Treatment recommended for viruses, bacteria, parasites, fungus, and to detox the female reproductive system from microbes, heavy metals, chemicals, and toxins.

9. SKIN

SKIN encourages improvement in skin conditions like **psoriasis, fungus, herpes, irritation, allergies, skin erosion, wrinkles, and stretch marks.** It prevents adverse chemical and biological effects that cause disruption in the skin. Helps maintain softer, smoother, and more flexible skin. SKIN is recommended for viruses, bacteria, parasites, fungus, and to detoxify the skin system from microbes, heavy metals, chemicals, and toxins.

10. EYES

Treats eye infections, irritation, dry eyes, watery eyes, glaucoma, macular degeneration, cataracts, peripheral or tunnel vision. It relieves eye problems from swelling, dry or watery eyes, high eye pressure, focusing problems, and cataracts. EYES recommended for viruses, bacteria, parasites, fungus, and to detoxify the eyes from microbes, heavy metals, chemicals, and toxins.

11. EARS

Helps fight ear problems like: tinnitus, dizziness or vertigo, excess wax, itching, pain or swelling, and hearing impairment. EARS recommended for viruses, bacteria, parasites, fungus, and to detoxify the ears from microbes, heavy metals, chemicals, and toxins.

12. LYMPHATIC

Treats issues with tonsils, ganglion, appendix, and sweat glands which are part of lymph system. The lymphatic system contains a network of passages, called lymphatic vessels, located over the entire body. These eliminate contaminants, like minerals and toxins, from organs and rebuild cells. LYMPHATIC **helps to clear up the lymphatic system from lymphomas and swollen ganglion.** This treatment is recommended for viruses, bacteria, parasites, fungus, and to detoxify the lymphatic system from microbes, heavy metals, chemicals, and toxins.

13. METACELLULAR

META-C assists in immune system issues like **fibromyalgia, arthritis, high levels of cholesterol, lupus, and rheumatism. It is also effective for carpal tunnel syndrome, slipped disk, and neuropathy.** Helps reestablish the metabolism of minerals and cholesterol. Helps reestablish cellular reconstruction of certain tissues, like cartilage, bone, and tendons, which are most commonly affected by failure to metabolize minerals. It is a partial combination of the METABOLIC AND CELLULAR TREATMENTS. It can be used when the major symptoms from fibromyalgia, lupus, and arthritis have diminished. META-C recommended for viruses, bacteria, parasites, fungus, and to detoxify the cellular system from microbes, heavy metals, chemicals, and toxins.

14. WEIGHT CONTROL

WEIGHT CONTROL helps control food cravings by maintaining a balanced endocrine system (hormonal glands). You will not feel as hungry and therefore you can lower your calorie intake by as much as 50% and see the results on the scale.

So, if you eat less food, you lose weight. If you feel weakness due to eating fewer nutrients, enhance your nutrition by eating homemade granola. (50 grams per day is recommended; granola formula included.) A diet is included to aid you in attaining the desired weight.

15. DETOXIFIER

DETOXIFIER works over the most pathogen-sensitive sub-organs and is recommended for daily detoxification from viruses, bacteria, parasites, and chemicals. Detox all food before eating it by spraying this product 3 times on your plate of food and 1 time on drinks. Avoid getting sick by spraying 3 times directly into your mouth every 10 minutes whenever you feel the beginning of symptoms for sore throat, stomach ache, diarrhea, fever, sneezing, or any other discomfort. This is an excellent preventative for staying detoxified and in good health. It is recommended for viruses, bacteria, parasites, fungus, and to detoxify the body from microbes, heavy metals, chemicals and toxins.

3. How to use the treatments

Each treatment has two bottles, one large amber bottle (120 ml or 4 ounces) and one spray plastic bottle (30 ml or 1 ounce). Each bottle has the name of the treatment, and you must pour the liquid from the large bottle onto the small spray bottle with the same name.

WARNING! Do not expose the treatments to electronic and/or electrical devices that produce electromagnetism. These include: cellular phones, microwave ovens, television sets, computers, refrigerators, dryers, and speakers. Maintain at least **3 feet away** from any such device.

DOSAGE

- INTERNAL

Apply 3 sprays of each treatment directly into your mouth (wait about 10 seconds between each sprayed treatment). Drink one glass of water after all treatments you are taking in the set. Drink at least one glass of water every hour if you are repeating treatments every 10 minutes.

- EXTERNAL

You can also apply the treatments externally as often as you wish in case it is impossible to do it through the mouth.

- WHILE SLEEPING

Keep the spray bottle against your body.

3.1. How to take treatments (schedules)

Take all treatments given during the hours you are normally awake until the treatment bottle is finished, then schedule a test.

10-15 minutes:

- 3 sprays of each, until pain/symptom goes away
- For 1-4 hours until you feel better

- If you are "very sick"

28 times a day:

-3 sprays of each, every 30 minutes

- When there is cancer, tumors, constant pain

- Bed stricken or confined to home

15 times a day:

-3 sprays of each, every hour

- When there is cancer, tumors, slight pain

8 times a day:

-3 sprays of each, every 2 hours

- Normal detoxification

Maintenance

Find out what works best for you. For example:

- Spray DETOXIFIER every 10-15 minutes when a new symptom appears, until the symptom goes away.

- Spray DETOXIFIER every 15 minutes for one hour or more before going to bed.

- Spray DETOXIFIER and the most needed treatment 4-8 times a day at your convenience (at meals, before going to bed, at bed time).

- When there are issues, spray the most needed treatments (where your body shows weakness) every 15 minutes until symptoms disappear.

4. Description of organ vials

Organ vials: 30 vials which correspond to 29 organs of the body and cell mutation by chemicals (vial #30).

1. Metabolic	11. Pineal	21. Thymus
2. Cellular	12. Pituitary	22. Spleen
3. Teeth	13. Thyroid	23. Structural
4. Mouth	14. Adrenals	24. Male reproductive
5. Stomach	15. Cardiovascular	25. Female reproductive
6. Pancreas	16. Lungs	26. Skin
7. Small intestine	17. Brain	27. Eyes
8. Large intestine	18. Neurological	28. Ears
9. Liver	19. Neurons	29. Blood Cells
10. Kidneys and bladder	20. Lymphatic	30. Growth/tumors

5. Description of sub-organ vials

2ww->JJJ Cell reconstruction cartilage-bones-fiber

12i Pituitary gland TSH hormone

13bc Thyroid gland T3, T4 hormone

15abcd Heart muscle

15h Heart left atrium

15vw Heart aortic valve and papillary muscles

18feo cerebral spinal fluid, spinal and cranial branch

24g Prostate gland

25a Ovaries

25ijk Uterus, uterus lining, uterus tubes

25uvw Breasts alveolar glands to nipple

26abcd Skin surface areas

29vwxyz blood globulin

6. Description of disease causing agents (pathogens and chemicals)

6.1 VIRUS (1-14)

- V-1 Adeno virus
- V-2 Alpha herpes
- V-3 Beta herpes
- V-4 Gamma herpes
- V-5 Arena virus
- V-6 Arteri virus
- V-7 Asfi virus
- V-8 Astro virus
- V-9 Birna virus
- V-10 Borna virus
- V-11 Bunya virus
- V-12 Calici virus
- V-13 Circo virus
- V-14 Corona virus

6.2 VIRUS (15-29)

- V-15 Filo virus (dengue)
- V-16 Flavi virus (dengue)
- V-17 Hepadna virus
- V-18 Irido virus
- V-19 Orthomyxo virus
- V-20 Papilloma virus
- V-21 Paramyxo virus
- V-22 Parvovirus
- V-23 Picorno virus
- V-24 Polyoma virus
- V-25 Pox virus
- V-26 Reo virus
- V-27 Retro virus (hiv)
- V-28 Rhado virus
- V-29 Toga virus (dengue)

6.3 BACTERIA (1-14A)

- B-1 Acetobacter
- B-2 Alcaligenes
- B-3 Bacteroid
- B-4 Chromatia
- B-5 Enterobacteria
- B-6 Legionell
- B-7 Micrococca
- B-8 Neisseria

B-9 Nitrobacteria

B-10 Peptococca

B-11 Pseodomona

B-12 Rhizobia

B-13 Richettsia

B-14 Spirochaeta

6.4 BACTERIA (15-29)

B-15 Vibrio

B-16 Staphylococci

B-17 Streptococci

B-18 Bacillus

B-19 Clostridium

B-20 Salmonella

B-21 Shigela

B-22 Campylobacter

B-23 Helicobacter

B-24 Arcobacter

B-25 Escherechia coli

B-26 Brucella

B-27 Pasteurella

B-28 Yersinia

B-29 Francisella

6.5 BACTERIA (30-44)

B-30 Haemophilus

B-31 Bordatella

B-32 Corynebacter

B-33 Mycobacter

B-34 Actinomycetes

B-35 Leptospira

B-36 Spirillum

B-37 Mycoplasma

B-38 Ehrlichia

B-39 Coxiella

B-40 Bartonella

B-41 Chlamidia

B-42 MISC 1

B-43 MISC 2

B-44 MISC 3

6.6 MUTATIONS (BACTERIA, VIRUS)

ABC-1	Anthrax
ABC-2	Smallpox
ABC-3	Black plague
ABC-4	Ebola
ABC-5	Botulism
ABC-6	Tuleremia
ABC-7	Influenza
ABC-8	Pertussus (wooping cof)
ABC-9	Tuberculosis
ABC-10	Disenterya
ABC-11	Cholera
ABC-12	Brucellosis
ABC-13	Diphtheria
ABC-14	Pseudomonas
ABC-15	Typhoid
ABC-16	Virus
ABC-17	Mycotoxins
ABC-18	Bacteria
ABC-19	Parasitic
ABC-20	Miscellaneous Toxins
ABC-21	Nerv gas
ABC-22	Mustard agent
ABC-23	Hidrogen Cyanide
ABC-24	Tear Gas
ABC-25	Arsines
ABC-26	Psych agents
ABC-27	lymph drainage
ABC-28	Fever chills
ABC-29	Muscle cramping
ABC-30	Nerves shock

6.7 TOXINS

B-45	Endotoxin
B-46	Neurotoxin
B-47	Cytotoxin
B-48	Enterotoxin

6.8 FUNGUS

- F-1 Cutaneous
- F-2 Dimorphic
- F-3 Opportunistic
- F-4 Saprophytes
- F-5 Subcutaneous
- F-6 Superficial

6.9 PARASITES

- P-1 Amoeba
- P-2 Ciliates
- P-3 Coccidia
- P-4 Microsporidia
- P-5 Flagellates
- P-6 Cestodes
- P-7 Nematodes
- P-8 Trematodes
- P-9 Plasmodium
- P-10 Piroplasm
- P-11 Protozoa General
- P-12 Helminth(worms) General

6.10 POISONS FROM BUGS

- A-1 Soft tick
- A-2 Hard tick
- A-3 Mites/chick
- A-4 Mosquito
- A-5 Fly
- A-6 Lice
- A-7 Flea
- A-8 Bed bug
- A-9 Triatomine
- A-10 Spider
- A-11 Bee
- A-12 Ant

6.11 STRESS

- E-1 Psychosomatic
- E-2 Past trauma
- E-3 Past experience
- E-4 Person

- E-5 Location
- E-6 Self stress
- E-7 Sympathy-related

6.12 SPIRITUAL

- S-1 Volition – willingness to do negative actions
- S-2 Present transgression against spiritual laws
- S-3 Past transgression against spiritual laws
- S-4 Curses, done or received
- S-5 Person, someone acting against you
- S-6 Places, to avoid, makes you feel bad
- S-7 Spiritual Object or act against a healthy spiritual life

6.13 CHEMICALS FROM MEDICINE AND FOOD

- C-1 Pesticides
- C-2 Additives and preservatives
- C-3 Cosmetics
- C-4 Medication
- C-5 Solvents

6.14 RADIATION (XRAY, CHEMO-RADIOTHERAPY, UNUNHEXIUM)

- M-144 Iridium
- M-176 Radium
- M-177 Radon
- M-178 Rhenium
- M-179 Rodium
- M-180 Rubidium
- M-181 Ruthenium
- M-182 Rutherfordium
- M-183 Samarium
- M-184 Escandium
- M-204 Uranium
- M-205 Ununhexium (Uuh)
- M-206 Ununoctium (Uuo)
- M-207 Ununpentium (Uup)
- M-208 Ununquadium (Uuq)
- M-209 Ununseptium (Uus)
- M-210 Ununtrium (Uut)

6.15 ELECTROMAGNETIC WAVES

- G1 Earth devices
- G2 Electronic devices
- G3 Air wave devices

6.16 GENETIC

- DNA Father
- RNA Mother

7. Description of specialty test vials

- Hypertension** Tendency to have high blood pressure
- Diabetes** High sugar levels due to insulin-eating toxins in blood
- Bad food tester** While holding this vial, ingredient will test strong if it is bad
- All antidotes** Combination of ALL disease causing agents
- POS (+)** Positive response (it is good) (told the truth)
- NEG (-)** Negative response (not good) (lied-bad)

8. Description of nutrition vials

Testing "positive" indicates lack of a particular nutritional ingredient. Vitamins and minerals are usually not needed as much as salts (sulfates and phosphates), aminoacids, enzymes and fats (omega 3-6-9). Most people take vitamins and minerals that they do not need. Supplements might be needed; the best supplement is home made granola, with lots of nuts and seeds which contain the most valuable nutrients for humans. See Granola recipe in section 16.

- Vitamins
- Minerals
- Salts
- Aminoacids
- Enzymes
- Fats and oils
- Food allergies

9. Making treatments with the Remedy Maker

The Remedy Maker is a small machine powered by 110v current and a rechargeable 9-volt battery. It is used for making homeopathic remedies from other remedies (vials) and source frequencies, and for copying a particular homeopathic substance or tincture.

9.1 REMEDY MAKER DESCRIPTION: There are two areas on your Remedy Maker, one says **Input** and the other says **Output**.

The **Input area** is for placing the master vial we are going to copy the frequencies **from**.

The **Output area** is for placing the bottle containing the base solution which will be our new treatment.

Anything that is on the Output area when you press CLEAR will be cleared or neutralized of any electromagnetic frequencies that might have been there. WARNING: Putting a Master Vial on the Output area and pressing CLEAR will erase it.

Every time you are going to make a treatment, you must first **CLEAR** or neutralize the energy of the bottle with the base solution. As previously explained, this is done by placing the bottle with the base solution (**NOT the master vial**) on the **Output** area and pressing **CLEAR**.

9.2 HOW TO MAKE YOUR TREATMENTS STEP BY STEP:

1. The **OUTPUT** jack on the Remedy Maker is used to attach a metal plate to allow batches of the same remedies or for a large container. The **INPUT** jack on the Remedy Maker is used to attach a metal plate to allow the placement of several vials with different frequencies. See Section 9.3 on how to use the plates. The **ACULIGHT** jack is used to attach a laser light (supplied) in order to apply a treatment directly to any area of your body once you placed a treatment on the **INPUT** area. The **ACULIGHT** jack works as an **OUTPUT**.
2. Place the bottle with the water base solution (see Section 11 to prepare water based solution) on the **Output** area; it should have a label with the name of the treatment you are making.
3. Press **CLEAR**. The Output light goes on, and then turns off after 10 seconds. This ionizes and neutralizes any electromagnetic energy that may have been in the base solution.
4. Place the vial with the treatment you are going to **copy** on the **Input**
5. Press **COPY**. The **input** light will go on for 10 seconds, then the **output** light will go on for an additional 10 seconds. (**COPY** increases potency to 4x, 10x and 50x)
6. Press **MAKE** and wait, as in step 4.

(**MAKE** increases potency 200x.)

7. Next, you need to activate the molecules of water with the new imprint. Do this by striking the bottle with the treatment 22 times against the palm of the hand and hold bottle with right or left hand and strike the bottom of the bottle against the palm of the other hand 22 (22 gives the strongest results when tested with the muscle test).

8. Your new treatment is done.
9. **CONTINUOUS** is used when you are making a large bottle of a treatment, for example, a ½ liter capacity or larger, on the output plate instead of placing it on top of the Remedy Maker. Keep it ON for 1-3 minutes. **CONTINUOUS** is a longer **COPY**. It goes off when you press it again.

The following is a graphical explanation of the process in 3 easy steps:

- | | | |
|--|---|--|
| <p>STEP 1 - Place the bottle with base solution on the OUTPUT area and press CLEAR on the Remedy Maker. REMEMBER that anything placed on OUTPUT will be cleared when the light goes on. Make sure you put the right container here!</p> | <p>STEP 2 – Place the master vial or the container with the substances you will be copying the frequencies from on the INPUT area. Press COPY and repeat for bottle 22 times, and then label it with MAKE. The Input light goes on and off, the name of the treatment and the and then the Output light goes on and off.</p> | <p>STEP 3 – When the OUTPUT light goes off, it indicates the new treatment is ready. Just remember to strike the person's name (if you wish).</p> |
|--|---|--|

9.3 HOW TO USE THE BATCH PLATE

The batch plate is used to make multiple treatments at the same time. This allows you to have treatments ready for your clients so they don't have to wait while you make one treatment at a time.

1. Place the batch plate on top of insulated, non-conductive material like a mouse pad.
2. Connect longer cable to OUTPUT port hole in the Remedy Maker.
3. Connect opposite cable with alligator clips to batch plate.
4. When batch plate is used, after doing **COPY** and **MAKE**, also use **CONTINUOUS** for 1-3 minutes.
5. Strike treatment bottles 22 times against your palm. (you can strike 2 bottles at a time).

6. Do the same for INPUT plate.

10. Muscle test and finger friction test

Muscle testing can be used to determine if a substance is “good” or “bad” for a person. A fancy word for muscle testing is kinesiology. Kinesiology is the strength change of a muscle as it is tested while holding ingredients, substances, or sample vials. Kinesiology is based on a quantum principle in applied physics.

Quantum energy is the subtle energy emitted by molecules that surrounds a certain area around the molecules of matter. There is no way to isolate quantum energy. It extends away from matter through plastic, metal, wood, etc. Quantum energy, or electromagnetic energy, is what is sometimes called the “aura” surrounding people and other living organisms.

Modern studies have shown there is an electromagnetic fluctuation in the cellular activity when the body is subjected to any substance. There is literally a rise and fall in electrical current when you eat food, when you subject yourself to any substance, or even have a thought or experience.

In the human body, electromagnetic fluctuations travel along the nervous system and affect every part of the body positively or negatively; there is no neutrality. Everything is positive or negative, although it might show higher on the scale in one direction or the other. Kinesiology, then, can determine if the muscle being tested reacts stronger or becomes weaker when it is tested against a specific substance.

If a substance makes the person stronger, then that substance **IS GOOD** for the person. If a substance makes the person weaker, then that substance **IS NOT GOOD** for that person. This is first tested while not holding the substance. Then do the same test while holding the substance to compare the two tests.

Therefore, all internal actions of the body can be measured by the reaction found externally when doing the kinesiology test. If a substance simply touches the body, it causes a measurable electromagnetic reaction. So testing the electrical conduction potential against muscle with substances such as foods, nutrients, and sample items can be effectively shown. Any muscle of the body can be used to perform the kinesiology evaluation, but we will explain two ways for doing the test.

Kinesiology can be used to identify if a certain treatment is beneficial for a client. It can also be used to determine what organs of the body are weak or ill. Furthermore, kinesiology can pinpoint the cause of a problem, such as a virus, bacteria, parasite, fungus, toxin, chemical, or nutrition. Kinesiology can reveal if a food, vitamin, or medicine is beneficial to a person.

10.1 FINGER FRICTION TEST – PREFERRED TEST - CLICKS

This technique is done by rubbing your middle finger and thumb together while touching the person or anything you are testing. The finger friction test is discrete and comfortable for both you and the person being tested, and for using while you shop for food. You can develop a feel (click) for the change in the energy which results in either a softer or stronger friction between the fingers. This we will call “clicks”. When we rub our fingers together, we count the number of times we click them until the fingers slip and click no more (no friction). The greater the number of clicks the more that substance or vial or ingredient is needed.

Using this test is also convenient because it leaves your other hand free to hold food and products, and to touch a test point on the body, or touch the sample vials in the Master kit. You can also use this technique with the same scale mentioned above to test how much the organs are affected in the body of the person.

When testing organ vials, if you count a high number of clicks, it means the body of the person tested needs that frequency to offset issues and weaknesses he/she has in that organ. The organ and sub-organ vials contain the neutral frequencies from a healthy organ. That means that the person tested has a weakness or a negative issue in that organ.

For example, if the vial for "KIDNEYS" tests 10, that means the organ is highly affected by some virus, bacteria, or other contaminant. In the case of the master vials, the scale to use is "one" for slightly affected to "ten or more" for considerably affected. Even something measuring only as a "one" needs to be treated. If you leave untreated, the pathogens from other organs will migrate to that weak organ. This is what is generally called a "healing crisis".

Once you have determined which organs are affected, you can hold the vial(s) of that organ(s) in your hand and cross-reference with the "Chemical" vial to determine also what is causing the problem, whether it is a heavy metal, bacteria, virus, etc. Those that test positive would be the ones that have a stronger friction and will need to be treated.

10.2 BASIC KINESIOLOGY TEST (MUSCLE TEST)

Every human body works electrically and electromagnetically. All matter is bound together by electrons of the molecules that form it. If electrons did not bind matter together then we would have ether (non matter).

Every human body has the capacity to feel/sense electromagnetic changes when that body comes into contact with other electromagnetic matter.

The ability to sense the electromagnetic changes/resistance is not taught because they do not want you to know how energy works in your body.

The **purpose of kinesiology** is to observe changes in the strength of the arm as an item is placed in contact with the body of the person being tested. When the person is holding the item to be tested, push the arm again to see if you get a strong or weak muscle.

To determine if an ingredient or an object is beneficial for a person, we use the arm muscle test.

This test compares the strength of a muscle while the person is neutral (does not touch the ingredient) and when we retest the person holding the ingredient.

If an ingredient or object is good for the person there will be more strength felt in the arm than when the test was conducted while not holding the ingredient. If the ingredient is not good for you the strength of the arm will be weaker.

Test instructions:

1. Begin your test by having another person extend his/her arm at a 90 degree angle from the floor. This can be done with the person sitting or standing up.
2. Once the arm is in position, place your hand between the wrist and the elbow of the person's outstretched arm, closer to the wrist than to the elbow.
3. Explain that you are going to test the strength of the arm, so the person will need to resist as you attempt to push it sideways against or into the body.
4. First you do the test without the person holding anything on the other hand.
5. Second you do the test with the person holding the ingredient or item you want to test.
6. The person needs to hold their arm steady, not trying to push sideways against you. Then you should challenge the strength of the arm by pushing the arm to the side of the person without holding anything. Make sure you use a steady action when

applying the pressure to the arm. Don't force or jerk the arm but push in a gentle, even motion. These four steps will give you a baseline of the muscle strength. Now you can test that person for good or bad responses to specific items.

Your goal is to determine the strength in the arm with and without the item, not to overpower the other person. You will feel the strength/weakness of the person you are testing and he/she will confirm that strength/weakness.

If you start with a weak muscle, there is no way of identifying the strength or weakness of the items. Before doing the kinesiology test, you must first determine if the muscle of choice is suitable for use. That muscle must have a strong response to your "challenge."

7. Challenge the arm to see if you get a weak or strong reaction. If you get a **strong** response, that means the body can benefit from this product. If you get a **weak** response, it means it will have some negative effect on the body.

There are many reasons why a product may weaken a person. Those include:

1. The ingredient has chemicals, bacteria, parasites or something that weakens and the body responds negatively.
2. Some of the ingredients are not pure.
3. The ingredient is chemically processed and lost its helpful elements.
4. Some of the ingredients were grown in contaminated land or were sprayed with a chemical pesticide.
5. Contaminated water was used for irrigation
6. The ingredient is not compatible with the person being tested or the person's health status is not able to process the ingredient correctly.
7. Anything harmful for the human body will yield a negative (causing muscle weakness).

Once you determine what is positive or negative for that person, you can start to evaluate which product or treatment will help to improve the health of that person. Do this by using a scale from 1 to 10 where 1 means it is not helpful and 10 means it is very effective. If something tests strong, test the arm again. But this time, pulse the arm up to a maximum of 10 times. If the arm weakens on the second or third pulse, the product is less beneficial than if the arm stays strong until the ninth or tenth pulse. Those products or treatments testing higher on the scale are the ones that will provide the most benefit to the person.

This arm strength test is very convincing to show how the energy of items and products interfere with the body. However, it becomes less convenient when you need to test several items or products or when you are working with your Master Kit. There is a second way to test for a treatment's effectiveness.

11. Preparing water base solution for treatments

You will need:

1. Jar (glass or Pyrex) with 1, 2 or 3 quart capacity
2. Liquor: rum, whiskey, brandy, or vodka: 30-35% alcohol (60 -70 proof)
3. Boston-round bottles, 8 to 12 ounce size.
4. Spray pump bottles: 1oz, plastic.
5. Purified water. Remember that potable water is not pure water.
6. Labels for names of treatments.

Procedure:

1. Put 250 cc (equivalents: 250 ml, 8 1/3 ounces, or 1 cup) of liquor per quart in the jar.
2. Then fill jar with water to the 1, 2, or 3 quart line.
3. Fill 8 ounce Boston-round amber bottles with water solution.
4. Label the amber bottles with name of treatment you will make.
5. Label the spray pump bottles.

12. How to test yourself

1. Always before testing neutralize yourself by washing hands in tap water.
2. Open Master Kit in a fairly secured area away from electromagnetic devices.
3. Test each organ vial by rubbing fingers and counting the number of times the fingers rub strong. Write down result.
4. Finish test of all organ vials before going further. When an organ tests "strong" it means it is affected with some disease-causing agent.
5. Take strongest organ vial (highest count) and test against disease-causing agents, bacteria, parasites, virus, chemicals, etc.
6. Count the strength of each area and write down result.
7. Repeat for other organ vials as you desire.
8. You can test a specific organ vial against the sub-organ vial to see if that area is also affected.
9. You can test the specialty vials and write down result. If you want to know what organ is the one causing the issue, then test against the organ vials. Also test against disease-causing agents to find out what is happening in those areas.
10. To find out how to resolve the issues, test the affected organs against the TREATMENT vials. Choose all treatments that come up positive (response of 1 or more)
11. All organs that came up strong must be accounted for in at least 1 treatment. If you leave weak organs untreated, the pathogens are going to migrate there.
12. Choose a schedule for taking treatments depending on the severity of the symptoms.

13. How to test other people

1. Neutralize yourself and the other person: both need to wash hands in tap water.
2. Open Master Kit in a fairly secured area away from electromagnetic devices.
3. "Touch" the other person, using one of two methods:
4. You can buy a grounding cord, like the ones sold at electronic shops for electronic engineers. You attach one end to your hand and give the other person the opposite end.
5. If you do not have any "wired" connection to the other person, you can touch knee to knee. (being directly "wired" to the other person doubles sensitivity, versus touching through cloth.)
6. Now repeat all the steps listed above in "HOW TO TEST YOURSELF."

14. Treatment description instructions

MOLECULAR ENERGY TREATMENT DESCRIPTION

energy@molcularenergy.net (mailto:energy@molcularenergy.net)

METABOLIC

Fibromyalgia, arthritis, lupus, high cholesterol, rheumatism, carpal tunnel, spinal disc hernias, neuropathy. Metabolization (absorption) of minerals and proteins by the cells, avoiding the accumulation of cholesterol in the blood and the saturation of minerals in the kidneys, restoring functions of the kidneys and bladder (infections, cysts, low-retention, kidney stones). Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

CELLULAR

Fibromyalgia, arthritis, lupus, neuropathy, bursitis, rheumatism, carpal tunnel, spinal disc hernias, skin allergies, problems in the mouth. Stimulates protein absorption, minerals, amino acids, enzymes and salts. It helps to restore tissue regeneration in joints, bones, cartilage, skin, internal organs, and problems related to lack of rebuilding of tissues in body organs. Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

DIGESTIVE

Digestive functions: mouth, thyroid, stomach, pancreas, gall bladder, large and small intestines, liver, kidneys, bladder, adrenals. Ulcers, hernia, tumors, diarrhea, constipation, acid reflux, heartburn, infections, diabetes, coughs. It helps to reestablish the digestive functions of the stomach, intestines, liver, pancreas, and gall bladder. Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

CARDIOVASCULAR

Pain in the chest, high blood pressure, low blood pressure, cardiac arrhythmia, valve timing, heart murmur, lack of oxygen in the blood, low hemoglobin, low platelet count, high-low blood sugar, varicose veins, leg ulcers. Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

RESPIRATORY

Asthmas, chest infection, pneumonia, sinus, colds, flu, tumors, allergies. It helps to recover from any kind of respiratory system infections and issues, throat, bronchioles and lungs. Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

HEAD

Migraines, stress in neck and shoulders, depression, irritability, bipolarity, short memory, cysts, tumors, Parkinson, nervous tics. Helps to improve head functions; memory, sleep issues, bad temper, nervous tic disorders, panic and nervous attacks, hormone functions in pineal, pituitary and thyroid. Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

EYES

Eye infections, irritation, dry eyes, watery eyes, glaucoma, macular degeneration, cataracts, peripheral or tunnel vision. Helps eye problems with symptoms such as: irritation, swelling, dry or watery eyes, glaucoma, high eye pressure, focusing problems, cataracts.

MALE REPRODUCTIVE SYSTEM

Problems in the prostate gland, cysts, tumors, swelling, infertility; improves male and hormonal functions. Helps with cysts or cancer in the prostate, erectile dysfunction and ejaculation problems, cysts in testicles, urine flow, cysts and tumors in pineal, pituitary and thyroid; infertility and any other problem in male glands. Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

FEMALE REPRODUCTIVE SYSTEM

All female issues, dysplasia, menstrual flow, cysts in ovaries, cervix, uterus; breast problems, cysts or cancer in breast; cysts and cancer in pineal, pituitary and thyroid; infertility. Helps adjust female and hormonal functions, acting over the reproduction organs and hormonal glands, regulating the functions of hormones like TSH, thyroxine, ovaries, alveolar glands in the breast, and the menstrual flow. Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

EARS

Hearing loss, tinnitus, vertigo, ear infection, swelling, itching.Helps fight ear problems with symptoms like: tinnitus, dizziness or vertigo, excess wax, itching, pain or swelling, hearing impairment. Recommended in case of virus, bacteria, parasites, fungus, and to detox the body from heavy metals, chemicals and toxins.

PURIFIER

Works over the most pathogen sensitive sub-organs.Purify all food before eating it by spraying three times over food and 1 time over drinks and snacks. Avoid getting sick by spraying 3 times directly to your mouth every 10 minutes whenever you feel symptoms like sore throat, stomach ache, diarrhea, fever, sneezing or any other discomfort. This is an excellent preventive and corrective treatment, if you wish to stay detoxified and in good health.

LYMPHATIC

Detoxifies lymphatic system for lymphomas, swollen ganglions(lymphatic is a network of passages called lymphatic vessels located over the entire body, gets rid of contaminants from organs and cellular rebuilding). Tonsils, ganglions, appendix and sweat glands are part of lymph system.

SKIN

Skin conditions like psoriasis, fungus, irritation, allergies, skin erosion, wrinkles, and stretch marks.Prevents adverse chemical and biological effects that cause disruption in the skin. Helps maintain the skin softer, more flexible, and smooth.

METACELLULAR- Metabolic and cellular combination.

Helps in cases of fibromyalgia, arthritis, high levels of cholesterol, lupus, rheumatism, carpal tunnel syndrome, slipped disk, neuropathy.Helps reestablish the metabolism of minerals and cholesterol; helps reestablish cellular reconstruction of certain tissues which are most commonly affected by not metabolizing minerals like cartilage, bone, tendons.

WEIGHT CONTROL

This treatment allows you to avoid food cravings and not feel as hungry when you diminish your daily intake of calories to only around 1000 Kcal per day. It helps to reprogram your endocrine system. Weigh your food intake and follow guidelines in the sheet we will give you with the instructions to diminish your daily intake and therefore to diminish your weight daily.

MOLECULAR ENERGY – [molecularenergy.net](http://www.molecularenergy.net/) (<http://www.molecularenergy.net/>)

TREATMENT INSTRUCTIONS

RECOMMENDED DIET

- A preservative is an ingredient added to food products and medication to “preserve” them from decomposing too fast (from going bad) by fungus, parasites or pathogens. A preservative is a pesticide!. Also, many colorings and flavorings contain chemicals in inorganic form, incompatible with the human body.
- Do not eat agricultural products which have been heavily sprayed, such as: cucumbers, tomatoes, tomato sauce, avocado (called haas), unless they are organic.
- Do not eat animal products from scavengers like: pork, shrimp, octopus, and shellfish. Do not eat any sausage such as *chorizo*, salami, bologna, which contain preservatives, chemical flavorings and white flour with preservatives.
- Meats like beef, chicken, and fish are allowed. If you are going to eat out and decide to eat chicken, make sure it is roasted or grilled, not fried to avoid white wheat flour and flavorings..
- Do not eat industrialized or processed food, only eat products that are in the most natural state possible, for example: do not use white sugar, instead use brown/raw sugar; also, take the white wheat flour out of your diet and eat instead 100% wholewheat. It is recommended to stop eating the so called *light* or *diet*
- Do not eat commercial products containing preservatives, colorings, and flavorings, such as chewing gum, candy, chocolate, fried packed products, complete seasonings, or seasonings that come packaged together, individually are ok.

- Do not use in food preparation any kind of seasoning, bouillon, or softeners that contain chemicals, such as seasoning cubes, packet soup, any kind of artificial seasonings and sauces. Use instead plants or ground seeds as seasoning, such as oregano, bay leaf, garlic, cilantro, thyme, basil, parsley, make sure when you buy them that are not mixed.

WATER Use pure water for cooking, making drinks, coffee or tea, etc. We recommend installing a whole house water purifier from MolecularEnergy.net. WHO definition of drinking water: Safe drinking water is water with microbial, chemical and physical characteristics that meet WHO guidelines or national standards on drinking water quality. Therefore tap water may contain group of harmful bacteria to survive, such as clostridium, salmonella, e-coli, Shigella, Staphylococcus, Streptococcus, also fungus and parasites. If "potable water" contains e-coli(feces) then it can also contain other microbes.

Water purification made simple: Is is said on the internet that water from the pipeline can be cured using hydrogen peroxide in the following proportion: 7 ml of hydrogen peroxide of 10 vol. (3%) in one quart of water. We breathe oxygen to purify the blood, drinking water with additional molecules of oxygen enhances the body's functions, is antibacterial, antiviral and helps tremendously in reducing cholesterol in arteries and blood. Green/fresh vegetables should be bathed in this water for a minute before making your salad.

Whole house water purifier Purchase a water purifier distributed by Molecular Energy that cleanses and restructures the water from the whole house. Avoid complex purification processes, and the risks involved in using an electric purifier that could have malfunctions due to low water volume and electricity failure, with bad consequences for you and your family, as well as the inability to wash the cooking utensils because of low water volume in the purification system.

HOW TO USE THE TREATMENTS

Each treatment has two bottles, one large amber bottle of 120 ml (4 ounces) and one spray plastic bottle of 30 ml (1 ounce). Each bottle has the name of the treatment, and you must pour the liquid from the large bottle onto the small spray bottle with the same name.

NOTICE Do not expose the treatments to electronic and electrical devices that produce electromagnetism, such as: mobile/cellular phones, microwave ovens, television sets, refrigerators, etc.

DOSAGE:3 sprays of each treatment directly to the mouth, and wait 10 seconds between one treatment and another. Drink a glass of water every hour and/or after taking treatments.

SCHEDULES

Every 10-15 minutes: Follow this schedule when there is a strong symptomatic affection and you want to control the symptom, level of pain and/or infection. Keep doing it for as long as it is needed until the symptoms diminish, usually from 1 to 4 hours.

Every 10-15 minutes: _____

28 times a day:every 30 minutes during awake hour _____

14 times a day: each hour during awake hours _____

8 times a day:every 2 hours during awake hours _____

6 times a day:every 3 hours during awake hours _____

POSSIBLE REACTIONS, when you take the treatments for the first time:

If your body aches, it might be due to NOT drinking sufficient water, or the pathogens are reacting. For pathogen reaction you need to take treatments every 10-15 min until symptoms diminish. Or take the treatments three times a day during two days to allow your body to adapt, and then return to the original schedule. Drink a glass of water every hour.

15. Weight control instructions

MOLECULAR ENERGY HOMEOPATHIC

EXTREME WEIGHT CONTROL

Recommended food schedule

Breakfast

Coffee or tea without sugar (NO sugar substitutes) a fruit

Mid-morning

A small fruit

Lunch

A protein of 180 grams (6 ounces max):

lean beef **or**

chicken without skin and grease **or**

fish without skin

180 grams of salad and/or vegetables.

You can also make a nice soup with above ingredients.

Mid-afternoon

A fruit, like orange, apple

Dinner

same as lunch (pick and choose)

Treatment schedule for weight loss

3 sprays in the mouth every 2 hours

if you get hungry, repeat sprays every 10 minutes for 30 minutes

Notes

1. A human body in rest consumes about 1600 kilocalories.
2. A normally active male will consume about 2500 kilocalories
3. A normally active female will consume about 2000 kilocalories
4. With weight control you should NOT consume more than 1000 kcal per day.
5. What you will need in daily additional kilocalories you WILL CONSUME from your bodie's storage.
6. Weight Control Treatment will reprogram your endocrine system to not feel hunger.
7. Repeat 3 sprays of Weight Control if you get hungry.
8. If you get anxiety, head heaviness, tired, then start taking 4 tablespoons of granola per day
9. Food intake must be weight in an electronic scale before cooking.
10. You should expect to loose from ½ pound to a whole pound per day if recommendations are followed correctly.

16. Granola recipe

GRANOLA

Español	English
8 tasas de avena	8 cups oatmeal
1 tasa de aceite oliva	1 cup olive oil
½ tasa azucar moreno	1/2 cup brown sugar
¼ tasa miel	1/4 cup honey
¼ tasa agua con ½ chucharita vainilla	1/4 cup water, with 1/2 tsp vanilla
1 cucharita sal	1 tsp salt
1 tasa Wheat Germ	1 cups wheat germ

Opcionalmente y recomendado agregar al menos 4 tasas de :semillas de amapola, coco rayado, nueces, linaza, almendras, etc.

Optionally and recommended, add additional at least 4 cups of: sunflower seeds, coconut, walnuts, almonds, flax, bird seeds, etc.

Mezclar todo en tasón grande, colocar en platos grandes, tostar durante toda la noche en 170 grados fahrenheit (12 horas)

Mix all ingredients in a bowl, kitchen aid type mixer is ok, then bake at not more than 170 degrees fahrenheit for 12 hours.

Cuando está frio, puede agregar pasas y dátiles.

Comerlo en batido de frutas para que las semillas se rompan y mejore la absorción en los intestinos.

When cold you can add raisins and dates.

You may eat it any way you want but blended with anything you like it is the best way so the seeds are properly absorbed in the intestines

17. Water Purifier

MOLECULAR ENERGY

molecularenergy.net

WHOLE HOUSE WATER PURIFIER

The water has "memory" of the energy that comes in contact with. Water when in motion breaks apart its own molecules releasing atoms of hydrogen and oxygen. The water that comes tumbling down the mountains is called "live" or "structured". Live water when it spins it destroys pathogens like bacteria and parasites, and the released oxygen and hydrogen atoms seek molecules to bind themselves to and when they find molecules of heavy metals and chemicals like pesticides, they oxidize and/or hydrolyze them. Converting them in non-threatening molecules for the human body.

In Molecular Energy we have developed with the help and ideas of various scientists and people, a water purifier restructurer that effectively can be put to work in homes, commercial buildings, hotels, pools, jungles, desert and the like. Heavy metal traces are minimized or completely rendered neutral for the human body. Released atoms of hydrogen and oxygen in the water purifier helps destroy microorganisms not good for the human life like bacteria, parasites and fungus.

Some minimal amount of water pressure is needed for the water to split its molecules in the purifier.

Water purifier measurements: 44cm x 5cm, with adapters. Price \$400.00 US.

INSTALLATION OF WATER PURIFIER:

It needs to get installed after the water meter.

If there is a water tank (reservoir) in the building (not hot), then it must go after that holding tank.

Don't put any filters after the purifier because they will eventually convert into a biological colony of pathogens. Filters must be installed before the purifier if one is needed.

The water purifier can be installed in any direction.

It comes with adapters to be able to be removed and installed again in a different location.

If you can not install it after the meter, the next best place is under the sink in your kitchen. Rented condos is an example of cases where the tenant is not allowed to install purifier outside, after the meter.

It does not need maintenance.

It does not filter the water.

You do not need to change it.

HOW TO TEST THE WATER PURIFIER EFFECTIVITY:

1. Take a sample of water before going thru the purifier, you can ask your neighbor for a sample if yours is already installed.
2. Use the muscle test technique explained in our website molecularenergy.net, and they compare the strength of another person while holding the potable water and then while holding the purified water.
3. If you want to spent some money and take the samples to a lab, call them first to find out their requirements for containers and sample taking technique. Tests must be done on a microscope to observe if there are life pathogens in the purified water and to observe the life pathogens in the potable water.
4. Dead pathogens (nothing moves) will be observed in the purified water and most times life microorganisms will be observed in the potable water.
5. Potability test on the purified water should not be done because the methodology used assumes that water must have chlorine. Normally it is done with a petri disk tester(bacteria growth) that contains life pathoges in order to test the potable and chlorinated water to make sure the pathogens do not grow more than expected due to the action of the chlorine.
6. If purified water does not contain chlorine then life is going to thrive in it, while not in the water with chlorine.
7. Purified water will taste different than potable water.
8. Some digestive issues are going to diminish and even disappear.
9. Blood oxygenation goes up, gives you a feeling of "well being".
10. Visits to doctors and medical establishments diminish.
11. Animals get less sick
12. Plants grow better and healthier
13. Extend life of flowers

<-----* LAST PAGE *----->
